

JACKY[®]

STORAGE EVOLUTION

Simple, but effective solutions.

500L Loader Hopper

The 500L capacity JACKY Loader Hopper provides an ergonomic platform on which to unload green coffee beans. Simply slide sacks off their pallet onto the mesh grate and cut the sacks to empty. This hopper can then be lifted to empty via the discharge hatch, or sucked out by the Green Bean Transfer Machine.

500L Jacky Loader Hopper with stainless steel mesh grate
(shown with standard galvanised steel frame)

Benefits

-  Faster pre-roast processing
- +  Substantially reduced OH&S risk
- +  Healthier staff
- +  Tidier workspace
- +  Improved efficiency
- =  Better Returns!
